## Why did I apply for Erasmus+ BIP, why did I come to Hungary?

Our English teacher presented the Erasmus+ BIP opportunity in Hungary and I was immediately interested, even though I did not know much about the BIP program. However, I was very interested in doing a short-term exchange and getting to know the education system in another country and being in an international community.

## What were my expectations?

To be honest, my expectations were not too high in the beginning, because of the lack of information about the BIP program that I had at first. But as I got the plan for the whole week, I was aware of getting to know many different insights of the Hungarian culture and different institutions. Since then, I expected to meet new people who are studying in the same field as me, getting to know a university in another country and finally also getting to know different ideas, of how kinder gardens and primary schools can look like.

## What did you do during your BIP at the University of Debrecen in Hungary-> the most memorable event(s)/feeling/impulse/meeting(s) etc.

My expectations have really been extremely exceeded. I was really impressed by the very first kindergarten that we got to know. There are so many little things that have been thought of, and I was also excited that there were animals in this kindergarten.

My personal highlight of the institutions that we have visited was the bilingual primary school. I was very impressed by the children's knowledge of German and the general concept of the primary school really appealed to me.

## I will never forget .....

I will definitely never forget the international night, because it was really interesting to learn about Poland. The Polish song and the Hungarian dance will definitely stay with me.

Moreover, I will forever remember the welcoming manner of everyone I got to know through this project in Hungary.

## Your friend wants to go on Erasmus+ BIP to the Faculty of Education for Children and Special Educational Needs of the University of Debrecen. What would you tell him/her?

Personally, I would tell them that they should be excited about the upcoming Erasmus+ program and that they should take as many photos in order to keep as many memories as possible for a lifetime.
