Why did I apply for Erasmus+ BIP, why did I come to Hungary

I applied for Erasmus+ BIP because I have already had a lot of great experiences in other countries and projects and these experiences have broadened and changed my perspectives. I see great added value in exchanging ideas with other countries about certain topics and problems in order to deal with topics and problems in one's own environment better and without prejudice.

what were my expectations

Unfortunately, I have to admit that I had different expectations from the exchange project. I was thinking more about more in-depth group work on topics of inclusion. I was missing the big goal of the week and although I got a lot of insight into the Hungarian school system, I would have liked to have seen more cooperation with Poland, Hungary and Austria in the form of preparations on specific topics at the university.

I will never forget

...the friendliness and effort on the part of the university in Hungary to offer us as much as possible and to organize many activities to strengthen the community!

Your friend wants to go on Erasmus+ BIP to the Faculty of Education for Children and Special Educational Needs of the University of Debrecen. What would you tell him/her?

That I think the focus on the minorities in Hungary is really great and progressive! In our country too, we should be aware of the migration rate and its consequences and not look away.
